

scribillpay

a fintech web & mobile app development company

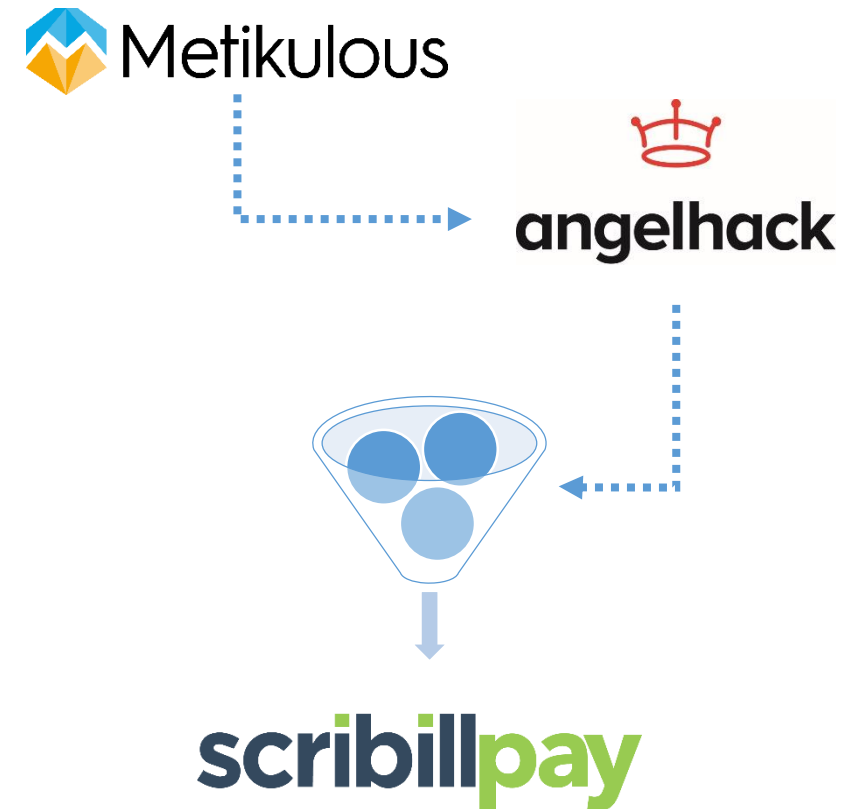

Introduction of Scribill Pay

- Founded: December 2014.
- A start-up fintech company based out of Dubai, U.A.E.
- Scribill - the first financial application which became the seed to establish the company.
- Expertise in Web Development, Web Designing, Mobile App Development, Mobile App Designing, ERP, CRM, SAP Implementation, Search Engine Optimization, Social Media Marketing, Online Marketing.

History of Scribill Pay

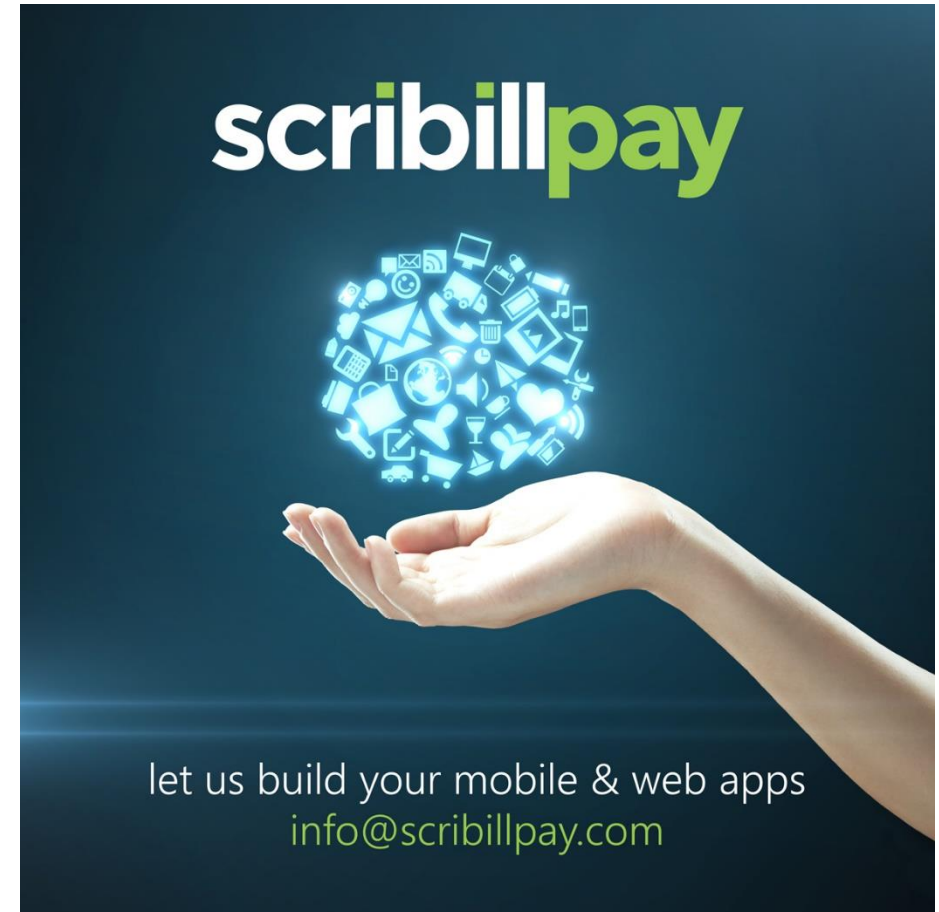

A team of developers working as 'Metikulous' in Lahore, Pakistan participated in a hackathon in Dubai, U.A.E. where they had to present an idea and implement it within 24 hours with which they secured the runners-up position. Later on, Scribill Pay was chosen for the in5 tech incubator to run their operations and build eye popping fin-tech web and mobile apps.

The team members included Sultan Saadat (CTO) and Wasif Jahangir (COO) that participated in the hackathon.

What we do?

- The Teams from Scribill Pay and Metikulous works together to provide financial technology applications to the industry.
- We develop mobile and web applications to enhance the business processes.
- We also build custom ERP and CRM beside SAP implementations.
